	High Blood Pressure	My blood pressure went on a little rampage yesterday, the first time in well over 6 months. It was running 186/102 and holding there. I sat down and began inhaling, and within 20 minutes it was down to 118/68. I had not done any inhalation on Friday or Saturday, which is why it probably went high. When inhaling on a daily basis I do not need my BP meds, but it is now apparent that without it, I do.
Mary Lu H.	Lyme Disease - extreme fatigue	Massive energy returned after 2 hours of inhalation. The effects lasted for days and fatigue did not return
Warren H.	Parkinson's - Slurred speech	Gone after 1.5 hours of inhalation
	Movements corrected	Muscle movement when commanded by brain returned after a few more hours of inhalation
